

Our Quality First Teaching Commitment for Every Child!

We aim to know and understand the individual needs of every child as well as we can. We work with parents, carers and wider family to gain a deeper understanding of the needs of all children.

We generate a classroom culture where children are comfortable to share their learning.

We encourage all children to be independent learners, teaching them how to remain resilient when faced with challenge.

We strive to nurture positive attitudes among children about individual differences.

We all have high expectations for pupils' behaviour, establishing and maintaining a good standard of discipline through routine, well focused teaching and positive and productive relationships.

We all create stimulating teaching and learning opportunities for children by instilling passion into the curriculum that we teach.

We all provide visual and concrete apparatus to enhance all children's learning experiences.

We all provide a stimulating and meaningful environment ensuring we all follow the whole school non negotiables.
