Week 3

Weekly Newsletter

Dear Parents,

Thank you for another successful parents evening. It was really good to hear the children talk to you about how they are doing in class and what their next steps are.

This week we have been completing our work on area and perimeter, this was new to some children, so we have started by using rectangles then moved onto compound shapes which are a little more challenging. When given the lengths of the sides the children were able to easily calculate the perimeter, when we took some values away this then become more challenging. We also looked at a short film called 'The Lantern.' From this the children have written a perspective piece and are planning instructions on 'How to Catch a Star.' We also started 'Wonder' this week. The children are all very excited to read on and explore the journey that Auggie has.

Homework: Arithmetic assessment. We have also asked the children to complete some work on using commas as they have said this is an area that they would like to revise.

Talk Homework: What are you worried or anxious about? Can you change this? Is there a solution? Would talking to a friend about help?

Class Website

To see what we will be learning about in class this year and other information such as PE kits etc, please visit our school website <http://www.stannesroyton.oldham.sch.uk/> and navigate towards the Purple Class tab. Weekly newsletters are also archived here. There is also a calendar of events on the website. If you do not have internet access or cannot use this website for any reason then please come and see me.

As always please do not hesitate to contact us if you have any issues or concerns and thank you for your continued support.

Have a great weekend
Mrs Martin and Mrs Wilkinson.
