Animals, inc humans

The World 30-50m

Am I developing an understanding of growth, decay and changes over time?

Am I showing care and concern for living things and the environment?

Can I talk about some of the things I have observed such as plants, **animals**, natural and found objects.

The World -ELG

Can I make observations of **animals** and plants and explain why some things occur, and talk about changes?

Year 1 NC:

Can I identify and name a variety of common animals including fish, amphibians, reptiles, birds and mammals identify and name a variety of common animals that are carnivores, herbivores and omnivores?

Can I describe and compare the structure of a variety of common animals (fish, amphibians, reptiles, birds and mammals, including pets)?

Can I identify, name, draw and label the basic parts of the human body and say which part of the body is associated with each sense?

Year 1 NC:

Can I identify and name a variety of common animals including fish, amphibians, reptiles, birds and mammals identify and name a variety of common animals that are carnivores, herbivores and omnivores?

Can I describe and compare the structure of a variety of common animals (fish, amphibians, reptiles, birds and mammals, including pets)?

Can I identify, name, draw and label the basic parts of the human body and say which part of the body is associated with each sense?

Year 2 NC:

Can I notice that animals, including humans, have offspring which grow into adults?

Can I find out about and describe the basic needs of animals, including humans, for survival (water, food and air)?

Can I describe the importance for humans of exercise, eating the right amounts of different types of food, and hygiene?

Year 2 NC:

Can I notice that animals, including humans, have offspring which grow into adults?

Can I find out about and describe the basic needs of animals, including humans, for survival (water, food and air)?

Can I describe the importance for humans of exercise, eating the right amounts of different types of food, and hygiene?

Living things and habitats

The World 30-50m

Am I showing care and concern for living things and the environment?

The World ELG

Children know about similarities and differences in relation to places, objects, materials and **living things**.

Additional unit to cover

Year 2 NC:

Can I identify and name a variety of common wild and garden plants, including deciduous and evergreen trees?

Can I identify and describe the basic structure of a variety of common flowering plants, including trees?

Can I identify and name a variety of common animals including fish, amphibians, reptiles, birds and mammals?

Can I identify and name a variety of common animals that are carnivores, herbivores and omnivores?

Can I describe and compare the structure of a variety of common animals (fish, amphibians, reptiles, birds and mammals, including pets)?

Can I identify, name, draw and label the basic parts of the human body and say which part of the body is associated with each sense?

Year 2 NC:

Can I identify and name a variety of common wild and garden plants, including deciduous and evergreen trees?

Can I identify and describe the basic structure of a variety of common flowering plants, including trees?

Can I identify and name a variety of common animals including fish, amphibians, reptiles, birds and mammals?

Can I identify and name a variety of common animals that are carnivores, herbivores and omnivores?

Can I describe and compare the structure of a variety of common animals (fish, amphibians, reptiles, birds and mammals, including pets)?

Can I identify, name, draw and label the basic parts of the human body and say which part of the body is associated with each sense?

Everyday Materials

<p><u>The World ELG</u> Can I talk about similarities and differences in relation to places, objects, materials and living things?</p>	<p><u>Year 1 NC:</u> Can I distinguish between an object and the material from which it is made?</p> <p>Can I identify and name a variety of everyday materials, including wood, plastic, glass, metal, water, and rock?</p> <p>Can I describe the simple physical properties of a variety of everyday materials?</p> <p>Can I compare and group together a variety of everyday materials on the basis of their simple physical properties?</p>	<p><u>Year 1 NC:</u> Can I distinguish between an object and the material from which it is made?</p> <p>Can I identify and name a variety of everyday materials, including wood, plastic, glass, metal, water, and rock?</p> <p>Can I describe the simple physical properties of a variety of everyday materials?</p> <p>Can I compare and group together a variety of everyday materials on the basis of their simple physical properties?</p> <p><u>Year 2 NC:</u> Can I identify and compare the suitability of a variety of everyday materials, including wood, metal, plastic, glass, brick, rock, paper and cardboard for particular uses?</p> <p>Can I find out how the shapes of solid objects made from some materials can be changed by squashing, bending, twisting and stretching?</p>	<p><u>Year 2 NC:</u> Can I identify and compare the suitability of a variety of everyday materials, including wood, metal, plastic, glass, brick, rock, paper and cardboard for particular uses?</p> <p>Can I find out how the shapes of solid objects made from some materials can be changed by squashing, bending, twisting and stretching?</p>
--	--	--	---

Seasonal Changes	<u>The World 40-60m</u> Can look closely at similarities, differences, patterns and change?	<u>The World 40-60m</u> Can I look closely at similarities, differences, patterns and change? <u>The World ELG</u> Can I talk about the features of my own immediate environment and how environments might vary from one another?	<u>Year 1 NC:</u> Can I observe changes across the four seasons? Can I observe and describe weather associated with the seasons and how day length varies?	<u>Year 1 NC:</u> Can I observe changes across the four seasons? Can I observe and describe weather associated with the seasons and how day length varies?	
	Working Scientifically			<u>Year 1 & 2 NC:</u> Can I ask simple questions and recognising that they can be answered in different ways? Can I observe closely, using simple equipment? Can I perform simple tests? Can I identify and classify using my observations and ideas to suggest answers to questions? Can I gather and record data to help in answering questions?	

	Year 3	Year 3/4	Year 4/5	Year 5/6	Year 6
--	---------------	-----------------	-----------------	-----------------	---------------

Progression of Skills in Science

Key Stage 2

Plants

Year 3 NC:

Can I identify and describe the functions of different parts of flowering plants: roots, stem/trunk, leaves and flowers?

Can I explore the requirements of plants for life and growth (air, light, water, nutrients from soil, and room to grow) and how they vary from plant to plant?

Can I investigate the way in which water is transported within plants?

Can I explore the part that flowers play in the life cycle of flowering plants, including pollination, seed formation and seed dispersal?

Short Revision Unit for the Year 3s

Can I identify and describe the functions of different parts of flowering plants: roots, stem/trunk, leaves and flowers?

Can I explore the requirements of plants for life and growth (air, light, water, nutrients from soil, and room to grow) and how they vary from plant to plant?

Can I investigate the way in which water is transported within plants?

Can I explore the part that flowers play in the life cycle of flowering plants, including pollination, seed formation and seed dispersal?

Animals, inc humans

Year 3 NC:

Can I identify that animals, including humans, need the right types and amount of nutrition, and that they cannot make their own food; they get nutrition from what they eat?

Can I identify that humans and some other animals have skeletons and muscles for support, protection and movement?

Year 4 NC:

Can I describe the simple functions of the basic parts of the digestive system in humans?

Can I identify the different types of teeth in humans and their simple functions?

Can I construct and interpret a variety of food chains, identifying producers, predators and prey?

Short Revision for the Y3s:

Can I identify that animals, including humans, need the right types and amount of nutrition, and that they cannot make their own food; they get nutrition from what they eat?

Can I identify that humans and some other animals have skeletons and muscles for support, protection and movement?

Year 5 NC:

Can I describe the changes as humans develop to old age?

Short Revision for the Y4s:

Can I describe the simple functions of the basic parts of the digestive system in humans?

Can I identify the different types of teeth in humans and their simple functions?

Can I construct and interpret a variety of food chains, identifying producers, predators and prey?

Year 6 NC:

Can I identify and name the main parts of the human circulatory system, and describe the functions of the heart, blood vessels and blood?

Can I recognise the impact of diet, exercise, drugs and lifestyle on the way their bodies function?

Can I describe the ways in which nutrients and water are transported within animals, including humans?

Short Revision for the Y5s:

Can I describe the changes as humans develop to old age?

Living Things and their Habitats

Year 4 NC:

Can I recognise that living things can be grouped in a variety of ways?

Can I explore and use classification keys to help group, identify and name a variety of living things in my local and wider environment?

Can I recognise that environments can change and that this can sometimes pose dangers to living things?

Year 5 NC:

Can I describe the differences in the life cycles of a mammal, an amphibian, an insect and a bird?

Can I describe the life process of reproduction in some plants and animals?

Short Revision for the Year 4s:

Can I recognise that living things can be grouped in a variety of ways?

Can I explore and use classification keys to help group, identify and name a variety of living things in my local and wider environment?

Can I recognise that environments can change and that this can sometimes pose dangers to living things?

Year 6 NC:

Can I explain that unsupported objects fall towards the Earth because of the force of gravity acting between the Earth and the falling object?

Can I identify the effects of air resistance, water resistance and friction, that act between moving surfaces?

Can I recognise that some mechanisms, including levers, pulleys and gears, allow a smaller force to have a greater effect?

Short Revision for the Year 5s:

Can I describe the differences in the life cycles of a mammal, an amphibian, an insect and a bird?

Can I describe the life process of reproduction in some plants and animals?

•

Rocks

Year 3 NC:

Can I compare and group together different kinds of rocks on the basis of their appearance and simple physical properties?

Can I describe in simple terms how fossils are formed when things that have lived are trapped within rock?

Can I recognise that soils are made from rocks and organic matter?

Additional unit to cover Y3s:

Can I compare and group together different kinds of rocks on the basis of their appearance and simple physical properties?

Can I describe in simple terms how fossils are formed when things that have lived are trapped within rock?

Can I recognise that soils are made from rocks and organic matter?

•

Light

Year 3 NC:

Can I recognise that I need light in order to see things and that dark is the absence of Light?

Can I notice that light is reflected from surfaces?

Can I recognise that light from the sun can be dangerous and that there are ways to protect my eyes?

Can I recognise that shadows are formed when the light from a light source is blocked by a solid object?

Can I find patterns in the way that the size of shadows change?

Additional unit to cover Y3s:

Can I recognise that I need light in order to see things and that dark is the absence of Light?

Can I notice that light is reflected from surfaces?

Can I recognise that light from the sun can be dangerous and that there are ways to protect my eyes?

Can I recognise that shadows are formed when the light from a light source is blocked by a solid object?

Can I find patterns in the way that the size of shadows change?

Year 6 NC:

Can I recognise that light appears to travel in straight lines?

Can I use the idea that light travels in straight lines to explain that objects are seen because they give out or reflect light into the eye?

Can I explain that we see things because light travels from light sources to our eyes or from light sources to objects and then to our eyes?

Can I use the idea that light travels in straight lines to explain why shadows have the same shape as the objects that cast them?

Stand-alone unit to cover those missing Y5/6.

Can I recognise that light appears to travel in straight lines?

Can I use the idea that light travels in straight lines to explain that objects are seen because they give out or reflect light into the eye?

Can I explain that we see things because light travels from light sources to our eyes or from light sources to objects and then to our eyes?

Can I use the idea that light travels in straight lines to explain why shadows have the same shape as the objects that cast them?

Forces and Magnets

Year 3 NC:

Can I compare how things move on different surfaces?

Can I notice that some forces need contact between two objects, but magnetic forces can act at a distance?

Can I observe how magnets attract or repel each other and attract some materials and not others?

Can I compare and group together a variety of everyday materials on the basis of whether they are attracted to a magnet, and identify some magnetic materials?

Can I describe magnets as having two poles?

Can I predict whether two magnets will attract or repel each other, depending on which poles are facing?

Additional unit to cover Y3s:

Can I compare how things move on different surfaces?

Can I notice that some forces need contact between two objects, but magnetic forces can act at a distance?

Can I observe how magnets attract or repel each other and attract some materials and not others?

Can I compare and group together a variety of everyday materials on the basis of whether they are attracted to a magnet, and identify some magnetic materials?

Can I describe magnets as having two poles?

Can I predict whether two magnets will attract or repel each other, depending on which poles are facing?

Year 5 NC:

Can I explain that unsupported objects fall towards the Earth because of the force of gravity acting between the Earth and the falling object?

Can I identify the effects of air resistance, water resistance and friction, that act between moving surfaces?

Can I recognise that some mechanisms, including levers, pulleys and gears, allow a smaller force to have a greater effect?

Additional unit to cover Yr5s:

Can I explain that unsupported objects fall towards the Earth because of the force of gravity acting between the Earth and the falling object?

Can I identify the effects of air resistance, water resistance and friction, that act between moving surfaces?

Can I recognise that some mechanisms, including levers, pulleys and gears, allow a smaller force to have a greater effect?

States of Matter

Year 4 NC:

Can I compare and group materials together, according to whether they are solids, liquids or gases?

Can I observe that some materials change state when they are heated or cooled, and measure or research the temperature at which this happens in degrees Celsius (°C)?

Can I identify the part played by evaporation and condensation in the water cycle and associate the rate of evaporation with temperature?

Additional unit to cover Yr4s:

Can I compare and group materials together, according to whether they are solids, liquids or gases?

Can I observe that some materials change state when they are heated or cooled, and measure or research the temperature at which this happens in degrees Celsius (°C)?

Can I identify the part played by evaporation and condensation in the water cycle and associate the rate of evaporation with temperature?

Sound

Year 4 NC:

Can I identify how sounds are made, associating some of them with something vibrating?

Can I recognise that vibrations from sounds travel through a medium to the ear?

Can I find patterns between the pitch of a sound and features of the object that produced it?

Can I find patterns between the volume of a sound and the strength of the vibrations that produced it?

Can I recognise that sounds get fainter as the distance from the sound source increases?

Additional unit to cover Y4s:

Can I identify how sounds are made, associating some of them with something vibrating?

Can I recognise that vibrations from sounds travel through a medium to the ear?

Can I find patterns between the pitch of a sound and features of the object that produced it?

Can I find patterns between the volume of a sound and the strength of the vibrations that produced it?

Can I recognise that sounds get fainter as the distance from the sound source increases?

Electricity

Year 4 NC:

Can I identify common appliances that run on electricity?

Can I construct a simple series electrical circuit, identifying and naming its basic parts, including cells, wires, bulbs, switches and buzzers?

Can I identify whether or not a lamp will light in a simple series circuit, based on whether or not the lamp is part of a complete loop with a battery?

Can I recognise that a switch opens and closes a circuit and associate this with whether or not a lamp lights in a simple series circuit?

Can I recognise some common conductors and insulators, and associate metals with being good conductors?

Additional unit to cover Y4s:

Can I identify common appliances that run on electricity?

Can I construct a simple series electrical circuit, identifying and naming its basic parts, including cells, wires, bulbs, switches and buzzers?

Can I identify whether or not a lamp will light in a simple series circuit, based on whether or not the lamp is part of a complete loop with a battery?

Can I recognise that a switch opens and closes a circuit and associate this with whether or not a lamp lights in a simple series circuit?

Can I recognise some common conductors and insulators, and associate metals with being good conductors?

Year 6 NC:

Can I associate the brightness of a lamp or the volume of a buzzer with the number and voltage of cells used in the circuit?

Can I compare and give reasons for variations in how components function, including the brightness of bulbs, the loudness of buzzers and the on/off position of switches?

Can I use recognised symbols when representing a simple circuit in a diagram?

Stand-alone unit to cover those missing Y5/6:

Can I associate the brightness of a lamp or the volume of a buzzer with the number and voltage of cells used in the circuit?

Can I compare and give reasons for variations in how components function, including the brightness of bulbs, the loudness of buzzers and the on/off position of switches?

Can I use recognised symbols when representing a simple circuit in a diagram?

Properties and Changes of Materials

Year 5 NC:

Can I compare and group together everyday materials on the basis of their properties, including their hardness, solubility, transparency, conductivity (electrical and thermal), and response to magnets?

Can I know that some materials will dissolve in liquid to form a solution, and describe how to recover a substance from a solution?

Can I use knowledge of solids, liquids and gases to decide how mixtures might be separated, including through filtering, sieving and evaporating?

Can I give reasons, based on evidence from comparative and fair tests, for the particular uses of everyday materials, including metals, wood and plastic?

Can I demonstrate that dissolving, mixing and changes of state are reversible changes?

Can I explain that some changes result in the formation of new materials, and that this kind of change is not usually reversible, including changes associated with burning and the action of acid on bicarbonate of soda?

Additional unit to cover Y5s:

Can I compare and group together everyday materials on the basis of their properties, including their hardness, solubility, transparency, conductivity (electrical and thermal), and response to magnets?

Can I know that some materials will dissolve in liquid to form a solution, and describe how to recover a substance from a solution?

Can I use knowledge of solids, liquids and gases to decide how mixtures might be separated, including through filtering, sieving and evaporating?

Can I give reasons, based on evidence from comparative and fair tests, for the particular uses of everyday materials, including metals, wood and plastic?

Can I demonstrate that dissolving, mixing and changes of state are reversible changes?

Can I explain that some changes result in the formation of new materials, and that this kind of change is not usually reversible, including changes associated with burning and the action of acid on bicarbonate of soda?

Earth and Space

•

Year 5 NC:

Can I describe the movement of the Earth, and other planets, relative to the Sun in the solar system?

Can I describe the movement of the Moon relative to the Earth?

Can I describe the Sun, Earth and Moon as approximately spherical bodies?

Can I use the idea of the Earth's rotation to explain day and night and the apparent movement of the sun across the sky?

Additional unit to cover Year 5:

Can I describe the movement of the Earth, and other planets, relative to the Sun in the solar system?

Can I describe the movement of the Moon relative to the Earth?

Can I describe the Sun, Earth and Moon as approximately spherical bodies?

Can I use the idea of the Earth's rotation to explain day and night and the apparent movement of the sun across the sky?

Evolution and Inheritance

•

•

Can I recognise that living things have changed over time and that fossils provide information about living things that inhabited the Earth millions of years ago?

Can I recognise that living things produce offspring of the same kind, but normally offspring vary and are not identical to my parents?

Can I identify how animals and plants are adapted to suit their environment in different ways and that adaptation may lead to evolution?

Stand-alone unit to cover those missing Y5/6:

Can I recognise that living things have changed over time and that fossils provide information about living things that inhabited the Earth millions of years ago?

Can I recognise that living things produce offspring of the same kind, but normally offspring vary and are not identical to my parents?

Can I identify how animals and plants are adapted to suit their environment in different ways and that adaptation may lead to evolution?

YEAR 3 and 4

Can I ask relevant questions and using different types of scientific enquiries to answer them?

Can I set up simple practical enquiries, comparative and fair tests?

Can I make systematic and careful observations and, where appropriate, taking accurate measurements using standard units, using a range of equipment, including thermometers and data loggers?

Can I gather, record, classify and present data in a variety of ways to help in answering questions

Can I record findings using simple scientific language, drawings, labelled diagrams, keys, bar charts, and tables?

Can I report on findings from enquiries, including oral and written explanations, displays or presentations of results and conclusions?

Can I use results to draw simple conclusions, make predictions for new values, suggest improvements and raise further questions?

Can I identify differences, similarities or changes related to simple scientific ideas and processes?

Can I use straightforward scientific evidence to answer questions or to support my findings?

YEAR 5 and 6

Can I plan different types of scientific enquiries to answer questions, including recognising and controlling variables where necessary?

Can I take measurements, using a range of scientific equipment, with increasing accuracy and precision, taking repeat readings when appropriate?

Can I record data and results of increasing complexity using scientific diagrams and labels, classification keys, tables, scatter graphs, bar and line graphs?

Can I use test results to make predictions to set up further comparative and fair tests?

Can I report and presenting findings from enquiries, including conclusions, causal relationships and explanations of and degree of trust in results, in oral and written forms such as displays and other presentations?

Can I identifying scientific evidence that has been used to support or refute ideas or arguments?
